

STATEMENT OF THE SPONSORS RESOLUTION 48-04 VIRTUAL ASSEMBLIES

Background: This is the result of another observation of strict construction of our laws:

While the precedent has been set by the General Grand Chapter and General Grand Council both holding Virtual Triennial Sessions during the pandemic crisis, it also has become clear that there are benefits to our voting membership when virtual means can be for selected matters such as Cryptic education or distribution of organizational information. Additionally, by providing specifically for Virtual Assemblies, we are insuring that future General Grand Councils have all available options in the event of new crisis such as a new world pandemic, catastrophic weather events or seismic event, or the occurrence of military conflicts.
